

## Cape Winds Arbor Instructions

### **Setup:**

1. With assistance, place both trellis ends on their side.
2. Align arbor's top with screw holes on trellis ends
3. Insert screws from bag and tighten with wing nut until secure. Wing nuts should be seen on the underside of the arbor.
4. With assistance bring arbor into upright position
5. Secure to ground with sandbags or hook stakes

### **Breakdown:**

1. With assistance lower arbor on its side for easy breakdown
2. Loosen and remove wing nuts from underside of arbor
3. Remove screws and screw wing nuts back on the screws.  
Place both into bag provided.
4. Remove top of arbor from two trellis ends.
5. Return to A to Z Party Rental
